

## FLEXdls™

### SPEND LESS TIME MANAGING DATA AND MORE TIME MANAGING PRODUCTIVITY

- ◆ Are you concerned about labor utilization and efficiency?
- ◆ Are you able to set fair and clear performance expectations for your warehouse workers?
- ◆ Does your warehouse management system provide adequate performance measurement capabilities?
- ◆ Are your executives and supervisors able to see and take action on labor performance—in a timely manner?
- ◆ Are the limitations of a KVI-based labor management system reducing the accuracy of your engineered labor standards?

### STANDARDS THAT WORK IN YOUR WAREHOUSE

To improve productivity in your operations, you must be able to measure and optimize labor activities. How can you realize 100-percent productivity from 100-percent of your workforce?

The answer is FLEXdls™, a product of West Monroe Partners—the labor optimization authority.

## FLEXdls™

FLEXdls™ is a stand-alone, best-of-breed labor management software solution that enhances any warehouse management system. FLEXdls™ generates discrete engineered labor standards (ELS) for critical tasks within a distribution environment—utilizing your preferred work measurement methods and your existing warehouse management system data.

### ACHIEVE A HIGHER STANDARD OF PRODUCTIVITY

Whether you already use a labor management system to improve productivity or are considering adding one, this is a good time to take a closer look at FLEXdls™ and see how your organization can:

- ◆ Decrease costs and eliminate waste in your operations
- ◆ Improve individual and group performance
- ◆ Motivate managers and employees
- ◆ Enhance planning capabilities

### SEE THE POTENTIAL

The advanced FLEXdls™ analytics module provides visibility into labor performance with dynamic dashboard, advanced reporting, and event management capabilities—features that enable your team to spend less time gathering and manipulating data and more time on the floor managing productivity. Users can:

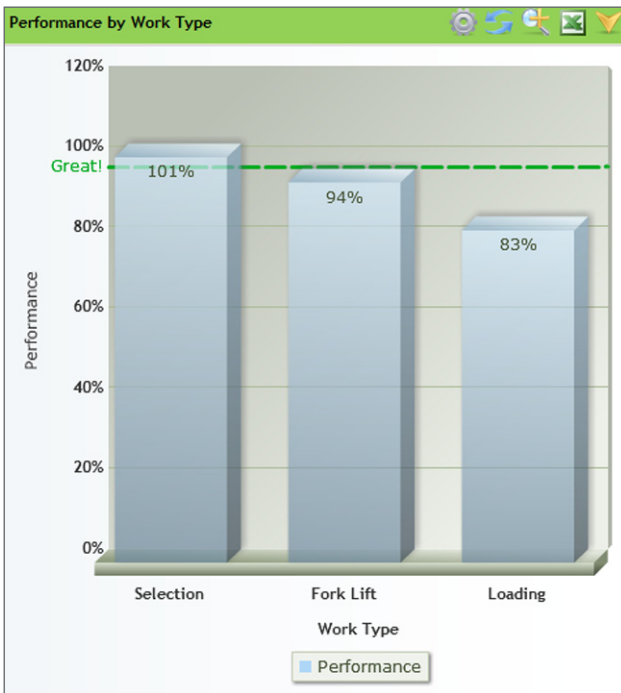

- ◆ Access highly configurable dashboards and reports that allow them to organize information easily according to individual requirements and visual preferences
- ◆ Generate performance alerts from highly configurable event management tools, enabling stakeholders to monitor performance and adjust resources to meet operational demands
- ◆ Combine past performance data with future planning factors to forecast labor required to maximize business performance accurately
- ◆ Export data to Microsoft Excel and Portable Document Format

## TESTED BY UNIONS

FLEXdIs™ has been reviewed and tested by union representatives—meeting stringent requirements for accuracy and fairness.

## PRODUCE MORE PRECISE RESULTS

With ELS as its foundation, FLEXdIs™ is the most accurate and flexible labor management solution available, allowing you to:

- ◆ Model the reality in your warehouse
- ◆ Calculate accurate travel times by assigning individual travel speeds for machine travel
- ◆ Implement discrete engineered labor standards independent of work measurement methods
- ◆ Produce more precise results by using discrete formulas rather than key value indicators
- ◆ Make updates immediately as your environment changes
- ◆ Integrate with any warehouse management system

That's business in the right direction.

West Monroe Partners is an international, full-service business and technology consulting firm focused on guiding organizations through projects that fundamentally transform their business. With the experience to create the most ambitious visions as well as the skills to implement the smallest details of our clients' most critical projects, West Monroe Partners is a proven provider of growth and efficiency to large enterprises, as well as more nimble middle-market organizations. Our more than 250 consulting professionals drive better business results by harnessing our collective experience across a range of industries, serving clients out of offices across the United States and Canada.
